Experience

Tadulako University — Pemberdayaan Desa Binaan (PDB), Research Assistant and KKN Tematik Student Team Leader (Ketua Unit)
Desa Ambesia Selatan, Central Sulawesi, Indonesia
Aug 2025 – present
1 year 3 months

Supported SITANPAS research and field implementation under Principal Investigator Ir. Dr. Yuli Asmi Rahman, S.T., M.Eng.

- Led and coordinated the cross-functional student team during field implementation and community activities.
- Coordinated integration of ESP32 smart scales with the SITANPAS web platform through the ThingSpeak API; supported platform administration and catch-data monitoring.
- Led collaborative development of Ambesia Fish brand identity, including logo, packaging, and brand guidelines; presented the brand and supported its introduction to the community.
- Produced visual communication and digital-content materials, and supported copyright recording and trademark registration through DJKI.
- Supported system socialization with four fishing groups.

PT Vinix Seven Aurum, through PT Inovasi Lentera Cipta Kreasi, Junior Data Scientist Intern (MSIB)
Yogyakarta, Indonesia (Remote)
Feb 2025 – May 2025
3 months

- Completed an internship focused on data science, data analysis, and data-informed decision support.
- Worked with data acquisition, cleaning, exploratory analysis, visualization, statistical analysis, business intelligence, and predictive modeling.
- Curated, cleaned, and published an Indonesian public-university international undergraduate-program dataset on Kaggle as a final project.

Dinas Komunikasi dan Informatika Kabupaten Morowali Utara, IT and Administrative Support Intern (Praktik Kerja Lapangan)
North Morowali Regency, Central Sulawesi, Indonesia
Nov 2020 – May 2021
7 months

- Supported general administrative work and day-to-day office operations.
- Assisted IT staff with technical and operational tasks and basic hardware and software maintenance.
- Built experience in workplace communication, organization, and teamwork.

Skills

Graphic Design and Digital Content

Software, Web, and IoT

Data Science and Applied AI

Research and Project Coordination

Certificates

Pengenalan ke Logika Pemrograman (Programming Logic 101)

Belajar Dasar Git dengan GitHub

Belajar Analisis Data dengan Python

Belajar Dasar Visualisasi Data

Belajar Machine Learning untuk Pemula
